

Dear Parents/Guardians,

29th September, 2020

Support for Students with Autism (2019/20-2020/21)

Our school has joined a 2-year support scheme which is organized by Education Bureau to help students with autism. It is now in the second year and the EDB will continue to arrange for educational psychologists to provide support and training for our teachers, conduct school-based consultations and participate in case meetings in the hope that we will be well equipped with essential skills to help students with autism effectively. It has to be noted that, to enhance the support service, educational psychologists may need to observe your child's performance in the lessons and/or individual/ group training sessions. In addition, they may view his/her assignments and/ or discuss with school teachers his/her needs. It is hoped that you will accept such arrangements. If you have any enquiries, please contact Miss Cheng.

Yours faithfully,
Mr. Chan Chun Wah
Principal
