

Dear Parents/Guardians,

10th November, 2021

“2021-2024 Understanding Adolescence Education Project”

Our school was invited by the Education Bureau to provide a 3-year "Understanding Adolescence Education Project" training activity for Primary 4 students. The aim is to help them set personal goals, enhance social skills, problem-solving skills and to improve the ability to manage emotions and sense of optimism, to properly equip students for their growth.

All students participating in the “Understanding Adolescence Education Project” are required to attend a series of group gatherings and activities in Primary 4, students will also participate in strengthening activities in Primary 5 and 6, in aim to match their growth progress and improve their personal resilience.

We hope that parents will encourage their children to participate in this meaningful education program. If the number of participants exceeds the quota, lots will be drawn to determine participation qualifications. In addition, while training students, the program also provides activities for parents to allow parents to be a part of their children’s growth. As the participation of parents is especially important for their children’s growth, parents please actively participate with your children.

The timetables of each activity will be announced later, parents please reply before 12th November, the enrolled name list will be announced on 24th November, 2021. If you have any inquires, feel free to contact Ms. Lam Wing Yu at 2404 5333.

Yours faithfully,
Mr. Chan Chun Wah
Principal
