

Dear Parents/Guardians,

13<sup>th</sup> January, 2022

**“Arrangements of Second Dose of 2021/22 Seasonal Influenza Vaccine  
School Outreach (Free)”**

The application process for the “2021/22 Seasonal Influenza Vaccination School Outreach (Free)” Program of this year has begun. The Department of Health Outreach Vaccination Team has administered the first dose of inactivated seasonal influenza vaccine (injectable) to your children on 25<sup>th</sup> November, 2021.

As your children has not received seasonal influenza vaccine at age 9 or below, the Department of Health Outreach Vaccination Team was scheduled to administer the second dose of inactivated seasonal influenza vaccine to your children at school on Friday, 21<sup>st</sup> January, 2022. However, due to the severe situation of the epidemic, the SAR government requires schools to switch to online classes starting 14<sup>th</sup> January, 2022. Therefore, the Department of Health Outreach Vaccination Team has **cancelled the school service**. Parents need to call “Health & Treasure International Company Limited” to make an appointment and **bring their children to the relevant clinics for influenza vaccination in person**.
