

Dear Parents/Guardians,

29th June, 2022

2021-22 Immunization of Newly-arrived Children and Children Entering Directly in Primary Grades Other than P.1

The School Immunization Unit of the Centre for Health Protection of the Department of Health provides immunization for children under the Hong Kong Childhood Immunization Programme to prevent children from contracting infectious diseases. Every year, many children from China or overseas come to settle in Hong Kong. These newly arrived children may not have received the recommended vaccines under the Hong Kong Childhood Immunization Programme.

In addition, children entering directly in grades other than Primary 1, such as children entering Primary 2 directly from kindergarten, may have missed the immunization programme for Primary 1 students and have not received the recommended vaccines. To ensure that the above children can receive vaccinations according to the “Hong Kong Childhood Immunization Programme”, the following documents are provided for parents’ reference:

1) Parents or Guardian of newly arrived children	“Immunization of Newly-arrived Children” (attached on page 1); & “Hong Kong Childhood Immunization Programme” (attached on page 2)
2) Parents or Guardians of children entering directly into grades other than Primary 1	“Immunization of children entering directly into grades other than Primary 1” (attached on page 3); & “Hong Kong Childhood Immunization Programme” (attached on page 2)

If you have any questions, please call 2404 5333 and contact Ms. Chan Hoi Ling.

Yours faithfully,
Mr. Chan Chun Wah
Principal
